

Hello Holy Cross School,

We are thrilled to invite you to the **First Annual SBDHS STEM Symposium**, hosted by the Grade 9 and 10 science teachers, on **Tuesday, April 15th, from 6:00 PM to 8:00 PM**. This exciting event will showcase the impressive STEM knowledge and creativity of our Grade 9 and 10 students.

Grade 9 Students will be presenting their projects in the gym and science lab, where they will share their scientific discoveries and experiments.

Grade 10 Students will be displaying their science-themed escape rooms throughout the school, in various classrooms. Throughout the course, students collaborated to design and build these immersive escape rooms, incorporating scientific principles, teamwork, and critical thinking.

This event is open to all ages - many of the escape rooms were designed with elementary/middle school students in mind.

Viewer's Choice Award: Both Grade 9 and Grade 10 projects will have a Viewer's Choice Award. Be sure to cast your vote for your favorite Grade 9 project and Grade 10 escape room!

We can't wait to see you there and celebrate the amazing achievements of our students!
