π Pi Day Fun Facts

π is the 16th letter of the Greek alphabet.

π has been known to humans for almost 4000 years, but the symbol for it was only introduced in the last ~300 years.

In Europe, Pi Day is celebrated on July 22nd instead of March 14th. A good estimate of π is the fraction 22/7.

π Day (March 14th) is Albert Einstein's birthday.

I prefer pi.
This sentence is a palindrome. (It's the same forward and backward.)

Some other good approximations of π:

- $\frac{355}{113}$
- $\frac{52163}{16604}$

The first million decimal places of π consist of 99,959 zeros, 99,758 1s, 100,026 2s, 100,229 3s, 100,230 4s, 100,359 5s, 99,548 6s, 99,800 7s, 99,985 8s, and 100,106 9s.*

Happy Pi Day!

Celebrate Pi Day with Holy Cross School!

Event Location /Time: Holy Cross School Gymnasium 9:30 am-11:30 am

Join Holy Cross School in celebrating Pi Day on March 14th! Delight in delicious and educational activities that ignite curiosity in STEM (Science, Technology, Engineering, and Mathematics) fields. Our event promises to foster innovation in a fun and engaging manner, ensuring a joyous learning experience for all participants. By joining us, not only will you indulge in the celebration of Pi, but you'll also directly contribute to our science programs, enriching the educational journey of our students.

Order Details:

1 Pi: \$3 _____

2 Pies: \$5 _____

All proceeds will directly support our science programs, enhancing the educational experience for our students. Please return this form with exact change only. **We will be using non flavored whipping cream as our pies.**

For any inquiries, please feel free to contact Dr. Bajaj directly at abajaj@holycrossschool.mb.ca

We look forward to celebrating Pi Day with you! Don't miss out on the fun and learning. **Deadline for orders is Monday, March 11th, 2024.**
